BEAMS

BEAM CONNECTIONS

INTERCHANGEABLE: (Non-Bolted Connection)

Interchangeable teardrop upright columns will accept industry standard "interchangeable" beams

- Manufactured with or without side holes
- Available in open or closed tube sections

INTERCHANGEABLE:
Adjustable on 2" centers

T-BOLT: (Bolted Connection)

T-bolt upright columns front-end-only connection allows for easy installation and you never need to reach into the column

- Extra rigid connection
- Available in open or closed tube sections

T-BOLT:
Adjustable on 3" centers

UPRIGHTS

ROLL-FORMED OPEN COLUMN UPRIGHTS

ROLL-FORMED CLOSED TUBE SUPERPOST UPRIGHTS

STRUCTURAL UPRIGHTS

SUPERPOST CLOSED TUBE COLUMN

- 30% - 40% greater load capacities than same gauge open back design uprights
- Over 200 times more resistant to torsional forces
- Cleaner - no areas to trap dust and debris
- Resists frontal impact five times more than structural column
